

UNICSTONE

BEST TECHNOLOGY - BEST RESULTS

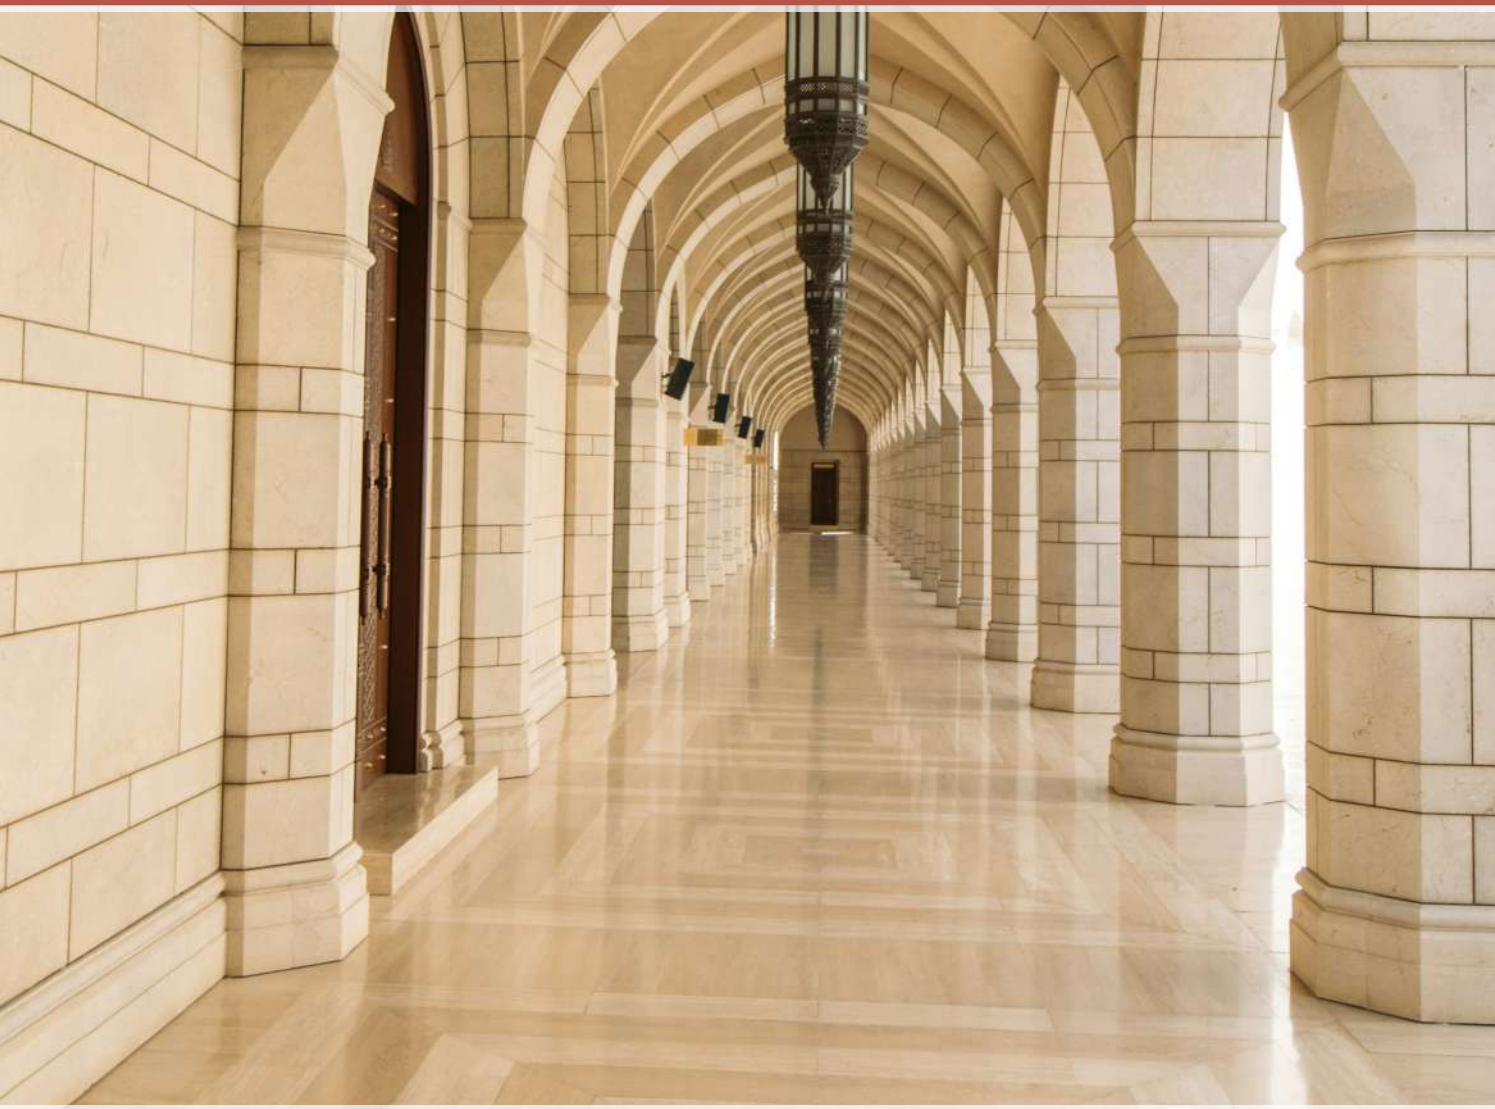

STONE ADHESIVES | SEALERS | CLEANERS | POLISH | PROTECTION

COMPLETE RANGE FOR STONE & MARBLE

INSTALLATION & CARE

FROM BONDING TO PROTECTION

WE COMPLETE THE SURFACE

BEST TECHNOLOGY - BEST RESULTS

UNICSTONE is a specialized manufacturer of high-performance solutions for natural stone, marble, and tile applications. Our product range is designed to support every critical stage of stone installation, treatment, finishing, and long-term surface care.

Our comprehensive portfolio covers **Adhesive Systems, White Series, Polyester Systems, Epoxy Systems, Densifying Systems, Polishing Systems, Protection Systems, Maintenance Systems, and Epoxy Grouts.**

From creating a strong bond to enhancing the final appearance and protecting surfaces over time, UNICSTONE combines product performance, application expertise, and continuous innovation to deliver dependable solutions for stone professionals.

Our focus is simple — **to make stone installation, finishing, protection, and maintenance more efficient, reliable, and professional.**

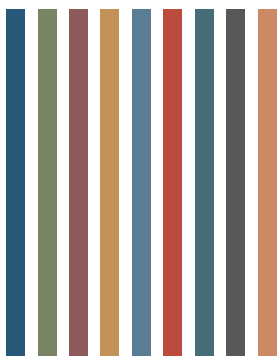

BEST TECHNOLOGY - BEST RESULTS

VISION

To become a trusted and recognized name in the stone and surface industry by developing innovative, reliable, and high-performance solutions that meet the evolving needs of professionals worldwide.

To Set New
Standards in
Stone Surface
Solutions

MISSION

At UNICSTONE, we innovate high-performance stone solutions, ensure consistent quality, protect and enhance surfaces, simplify professional applications, and continuously evolve through technology and industry expertise.

Performance
That Completes
the Surface

06

ADHESIVE SYSTEMS

High-performance bonding solutions for reliable stone and tile installation.

08

WHITE SERIES

Specialized white bonding solutions designed for light-coloured stones and marble.

10

POLYESTER SYSTEMS

Reliable polyester-based solutions for filling, bonding, and stone fabrication applications.

12

EPOXY SYSTEMS

High-performance epoxy solutions for demanding bonding, filling, and repair applications.

14

DENSIFYING SYSTEMS

Solutions designed to strengthen and improve the durability of stone surfaces.

15

POLISHING SYSTEMS

Professional solutions for achieving enhanced smoothness, gloss, and surface finish.

16

PROTECTION SYSTEMS

Advanced treatments designed to help protect surfaces against stains, moisture, and everyday wear.

18

MAINTENANCE SYSTEMS

Specialized cleaning and maintenance solutions for preserving the appearance and performance of stone surfaces.

20

EPOXY GROUTS

High-performance grouting solutions providing durable, clean, and reliable joints.

ADHESIVE SYSTEM

Stone & Marble Adhesives

Adhesive Systems are engineered for dependable fixing of natural stone and tiles, delivering strong adhesion, flexibility and lasting performance across demanding installation applications.

Versatile
Surface Use

Excellent
Flexural Ability

Superior
Flexibility

Tough Impact
Defense

UNICBOND ECO

Flexible cement-based adhesive for reliable fixing of tiles and natural stone, offering strong adhesion and improved flexibility.

Performance Conformity
EN 12004:2017 C1
IS 15477:2019 Type 1

Available in **Grey & White**
20 Kg, 50 Kg

UNICBOND WHITE

High-performance polymer-modified adhesive developed for enhanced bonding strength, flexibility and long-lasting installation performance.

Performance Conformity
EN 12004:2017 C2T
IS 15477:2019 Type 2

Available in **Grey & White**
20 Kg, 50 Kg

UNICBOND T

Polymer-modified tile adhesive offering high adhesion, extended open time and excellent resistance to vertical slip.

Performance Conformity
IS 15477:2019 Type 3
EN 12004:2017 C2TE

Available in **Grey & White**
20 Kg, 50 Kg

UNICBOND T GEL

Advanced gel-based cementitious adhesive combining high adhesion, extended open time and excellent workability for large-format surfaces.

Performance Conformity
IS 15477:2019 Type 3
EN 12004:2017 C2TE

Available in **Grey & White**
20 Kg, 50 Kg

UNICBOND S1

Highly flexible polymer-modified cementitious adhesive designed to accommodate substrate movement while maintaining strong adhesion.

Performance Conformity
IS 15477:2019 Type 3
EN 12004:2017 C2TES1

Available in **Grey & White**
20 Kg, 50 Kg

UNICBOND S1 GEL

High-performance gel technology adhesive offering strong adhesion, improved wettability and high deform ability for demanding installations.

Performance Conformity
IS 15477:2019 Type 3
EN 12004:2017 C2TES1

Available in **Grey & White**
20 Kg, 50 Kg

UNIECO

High-performance latex additive that enhances adhesion, flexibility, deformability, and durability of mineral-based adhesives.

Packaging Size
20 Kg

UNIGRIP

High-performance acrylic polymer emulsion enhancing adhesion, flexibility, and water resistance in cement-based and waterproofing applications.

Packaging Size
20 Kg, 5 Kg, 1 Kg

UNICFIX PRO

Highly flexible, high-strength adhesive for fixing water-sensitive tiles and natural stones on deformable substrates.

Performance Conformity
IS 15477:2019
EN 12004:2017 – R2 T

Packaging Size
1.5 Kg Set

QUICK FLEX

Fast-setting epoxy adhesive for spot bonding tiles and natural stones, delivering strong, flexible, and reliable adhesion.

Performance Conformity
IS 15477:2019 – Type 5
EN 12004:2017 – R2T

Packaging Size
10 Kg Set, 4 Kg Set

WHITE SERIES

Precision For White Stones

Specially developed for white and light-coloured stones, the UNICSTONE White Series delivers reliable bonding, clean filling and refined finishing while preserving the natural appearance of the stone.

Versatile Surface Use

High UV Resistance

Color Stable

UNIPOXY PLATNUM

A specially formulated polyester surface filler developed for filling pores, pinholes and minor surface imperfections in natural stone. It provides a smooth, uniform base for subsequent polishing.

Packaging Size

2.25 kg, 1 kg

UNIPOXY WHITE

A specially formulated polyester surface filler developed for filling pores, pinholes and minor surface imperfections in natural stone. It provides a smooth, uniform base for subsequent polishing.

Performance Conformity
IS 15477:2019 Type 3, EN 12004:2017 C2TE

Packaging Size

5 kg ,1.25 kg

UNICBOND GEL

Two-component polyester gel for filling and bonding marble and natural stones, ideal for light-coloured stones with minimal bleeding and clean, natural-looking joints.

Packaging Size

1 kg set

UNICBOND FLOW

Polyester-based liquid mastic for filling marble and natural stone surfaces and joints, ideal for white and light-coloured stones with smooth, uniform, low-bleed filling.

Packaging Size

1 kg set

POLYESTER SYSTEMS

Precision For Stone, Marble & Granite

UNICSTONE Polyester Systems provide versatile solutions for bonding, filling, repairing and finishing natural stone, marble and granite with excellent adhesion and polishability.

Versatile Surface Use

High UV Resistance

Color Stable

SOFT GRIP

A two-component polyester knife-grade mastic for bonding and filling natural stone. Its creamy consistency ensures easy application, strong adhesion and excellent polishability.

Packaging Size

1.5 kg set

FLEX LIQUID

A two-component polyester liquid resin for surface and joint filling of natural stone. Its fluid consistency ensures smooth application and efficient large-area filling.

Packaging Size

1 kg set

GOLDEN GEL

Two-component, UV-stabilized polyester gel for bonding and filling natural stone, offering easy application, strong adhesion, and excellent polishability.

Packaging Size
1 kg set

CLEAR SEAL

Two-component, UV-stabilized polyester resin for surface and joint filling, ensuring smooth flow and uniform application on large stone surfaces.

Packaging Size
1 kg set

CRYSTAL GEL

A two-component polyester transparent gel designed for filling and bonding natural stone. Provides strong adhesion and a clear, polishable finish.

Packaging Size
1 kg set

CRECK FIX

A colour-neutral polyester resin filler designed to fill cracks, pores, and surface imperfections in natural stone. Highly polishable for a smooth, consistent finish.

Packaging Size
1 kg set

UNIC TINT (Polyester)

A range of concentrated pigments for tinting polyester resins and fillers, enabling precise colour adjustment for a closer match with surrounding stone.

Packaging Size
50 g

MULTIFIX GEL

A two-component polyester-based stone filler for reliable bonding, filling and repairs. Easy to handle, with good adhesion and a smooth, polishable finish.

Packaging Size
1 kg set

EPOXY SYSTEMS

Precision Epoxy Stone Solutions

Epoxy Systems are designed for professional stone processing, offering reliable solutions for bonding, filling and repair with strong adhesion, controlled application and durable finishing.

Versatile Surface Use

High UV Resistance

Color Stable

WHITE GEL

Two-component epoxy gel for strong bonding and controlled filling of natural stone, ideal for precise application on horizontal and vertical surfaces.

Packaging Size
2.25 kg, 1 kg sets

UNIMAX GEL

UV-stabilized polyester transparent gel for bonding and filling natural stone, offering easy application, strong adhesion, and excellent polishability.

Packaging Size
1 kg set

UNI POX

colour-neutral, two-component epoxy resin gel with a modified amine hardener for minimal yellowing. Ideal for filling and sealing joints in natural and artificial stones. Can be tinted as required.

Features: Thixotropic, High Creep Strength, Weather Resistant, Colour Neutral

UNI PRO

Two-component epoxy system with a 1:1 mixing ratio for bonding and filling stone surfaces, offering strong adhesion and a durable finish.

Packaging Size
2 kg set, 1 kg set

UNI MAX

Two-component epoxy system for high-strength bonding and filling of natural stone, delivering reliable adhesion and long-lasting performance.

Packaging Size
5 kg set, 1.25 kg set

UNIFILL MICRO

Precision epoxy system for fine surface filling and bonding, offering controlled application, strong adhesion, and a smooth, polishable finish.

Packaging Size
5 kg set, 1.25 kg set

UNIC TINT (Polyester)

Concentrated pigments for tinting epoxy systems, enabling precise colour adjustment and natural stone matching.

Packaging Size
50 g

DENSIFYING SYSTEMS

Deep Strength For Stone

Densifying Systems penetrate the stone surface to support greater hardness, durability and resistance while helping enhance shine and surface performance.

Versatile
Surface Use

Increased
Acid & Stain
Resistance

Increased
Gloss

Increased Water
Resistance

STONE GUARD

Advanced densifier that penetrates stone pores to improve hardness, durability, shine, and resistance to water and stains.

Packaging Size

1 Ltr | 5 Ltr | 20 Ltr

ULTRA GUARD

Applied on dry surfaces after 800-grit grinding. Ideal for white and light-coloured stones, offering enhanced stain resistance.

Packaging Size

20 Ltr, 5 Ltr, 1 Ltr

PRIME SHIELD

Applied on dry surfaces after 800 grit grinding. Specifically recommended for white and light-coloured stones, providing a higher degree of stain repellency.

Packaging Size

20 Ltr, 5 Ltr, 1 Ltr

POLISHING SYSTEMS

Passion For White

Polishing Systems are formulated to restore and enhance the natural lustre of calcareous stones, helping achieve a refined high-gloss finish with efficient application.

Versatile
Surface Use

Increased
Acid & Stain
Resistance

Increased
Gloss

Increased Water
Resistance

UNIC SINE

Polishing powder for restoring and enhancing the natural shine of calcareous stones, delivering a high-gloss, factory-like finish.

Packaging Size

5 kg, 1 kg

UNIC SHINE LIQUID

Ready-to-use polishing cream for worn stone surfaces, restoring shine and achieving a factory-finish polish with minimal equipment.

Packaging Size

1 Ltr

UNIC SHINE ULTRA

Advanced polishing solution for calcareous stones, restoring shine and delivering excellent gloss with minimal equipment.

Packaging Size

1 Ltr

PROTECTION SYSTEMS

Advanced Protection For Stone

Protection Systems help defend stone surfaces against water, oil and stains while preserving their natural appearance and supporting long-lasting surface performance.

Versatile
Surface Use

Oil & Stain
Resistance

Longlasting

Increased Water
Resistance

STONE CARE

Initial surface preparation treatment designed to improve the effectiveness of subsequent protection systems. Helps enhance penetration and performance of stone protection products.

Packaging Size
5 L, 1 L

UNI SHILD

Advanced nano-based protection system designed to provide excellent water and stain repellency while maintaining the natural appearance of stone.

Packaging Size
5 L, 1 L

UNICOA T

Ready-to-use solvent-based impregnator offering durable oil and water repellency, stain resistance, and easy clean-up. Suitable for low-porosity stone, unglazed tiles, grout, and terracotta.

Packaging Size
5 L, 1L

UNICOAT - W

Water-based impregnating protection system designed to provide water, oil and stain resistance for stone and tile surfaces.

Packaging Size
5 L, 1L

UNIC IMPRIGNATOR

Ready-to-use silane-siloxane impregnator that reduces water absorption while maintaining substrate breathability.

Packaging Size
5 L, 1L

Ws70 BARRIER COAT

Specially formulated protective treatment that enhances the natural colour and appearance of stone while providing protection against water, oil and stains.

Packaging Size
5 L, 1L

UNISEAL AQVA

Ready-to-use water-repellent impregnator offering deep penetration, water resistance, and maintained substrate breathability.

Packaging Size
20 L, 5 L, 1L

CERA COAT

Wax-based finishing treatment that restores and enhances stone surfaces with a smooth, glossy finish. Suitable for automatic waxing machines.

Packaging Size
5 L, 1 L

UNIC GLOSS

Treatment that enhances natural stone gloss and appearance while providing added surface protection.

Packaging Size
5 ltr, 1 ltr

UNISEAL - W

UNISEAL W is a water-based, non-film-forming sealer that provides long-lasting water repellency while preserving the natural appearance of stone surfaces.

Packaging Size
5 L, 1L

MAINTENANCE SYSTEMS

Complete Stone Care Solutions

Maintenance Systems offer specialized solutions for cleaning, stain removal and surface care, helping restore and maintain the appearance of natural stone and tile surfaces.

Versatile Surface Use

Fast Action

Easy to Clean

UNIPOXY REMOVER

Specially formulated remover for cleaning epoxy, adhesive and resin residues from tools and suitable stone surfaces.

Packaging Size
400 ml

UNIC TILE CLEANER

Powerful cleaning solution designed for removing stubborn dirt, deposits and construction residues from tile and suitable hard surfaces.

Packaging Size
5 ltr.

UNIRUST REMOVER MARBLE

Specially formulated solution for removing rust stains from marble and other suitable calcareous stone surfaces.

Packaging Size
400 ml

UNIRUST REMOVER GRANITE

Specially formulated cleaner for effective removal of rust stains from granite and other suitable stone surfaces.

Packaging Size
400 ml

ALGAE CLEAN

Effective treatment for removing algae and organic growth from stone and tile surfaces, helping restore a clean and fresh appearance.

Packaging Size
400 ml

UNIC STAIN OFF

Specially formulated stain-removal solution for treating common stains on natural stone and other suitable surfaces.

Packaging Size
400 ml Set

UNIC DRY

Specialized treatment designed to remove suitable stains and contaminants from stone surfaces while helping restore their original appearance.

Packaging Size
600 ml Set

UNIC SURFACE CLEANER

Unic surface cleaner is a gentle, fast-drying cleaner for natural stone, marble, granite, tiles, and hard surfaces. It effectively removes everyday dust, dirt, light stains, and marks while maintaining a clean, streak-free finish.

Packaging Size
5 ltr.

POXY GROUTS

Durable Grouts For Stone

Poxy Grouts are formulated for reliable and durable joint filling across stone, marble, granite and tile applications, supporting professional installation and lasting joint performance.

Versatile Surface Use

High UV Resistance

Color Stable

UNIBOND GROUT

High-performance poxy grout designed for tile and stone joint filling applications. Provides durable and reliable performance for professional stone and tile installations.

Packaging Size
5 Kg, 1 Kg Set

UNIBOND GROUT CLEAR

A stain-free, colour-fast and chemical-resistant 100% solid epoxy grout specially designed for ceramic tiles, vitrified tiles, marble and natural stone.

Packaging Size
3 Kg Set
